PROFILE

I'm Shivam Kumar, a full stack web developer with over 4 years of experience. I specialize in Laravel, WordPress, and Shopify, as well as process automation with Power Automate Desktop. My skills include responsive design, database management, API integration, SEO, and AJAX. Currently at Digital Darzee Company, I develop and manage diverse web projects. I'm passionate about continuous learning and tackling complex problems.

WORK EXPERIENCE

Digital Darzee

PHP Laravel Developer   Jan 2024 - Present

- **ERP (Enterprise Resource Planning) Software:** I developed comprehensive ERP solutions to streamline business processes and improve operational efficiency.
- **CRM (Customer Relationship Management) Software:** I created CRM systems to manage customer relationships and enhance sales and support functions.
- **E-Commerce Solutions:** I built and maintained online stores using Shopify, integrating payment gateways and optimizing user experiences.
- **CMS (Content Management Systems):** I designed and implemented CMS platforms for straightforward and efficient content management and updates.
- **LMS (Learning Management Systems):** I developed LMS solutions for educational institutions, facilitating smooth and effective learning experiences.
- **Healthcare Management Systems:** I created systems to manage patient records, appointments, and healthcare workflows efficiently.
- **Booking Systems:** I built reservation systems for various industries, including travel and hospitality, ensuring seamless booking experiences.
- **Inventory Management Systems:** I developed solutions for tracking and managing inventory levels and logistics, improving accuracy and efficiency.
- **Real Estate Platforms:** I designed platforms for real estate listings, property management, and client interactions to support real estate businesses.
- **Help Desk and Support Systems:** I implemented systems for customer support, ticketing, and service management to enhance client satisfaction.
- **Accounting Management Systems:** I created accounting solutions to manage financial records, transactions, and reporting with accuracy and compliance.
- **Custom Web Applications:** I designed and developed tailored web applications to meet specific client needs and business requirements.
- **Website Development:** I developed and optimized websites using WordPress for various industries, ensuring they were user-friendly and responsive.
- **Process Automation:** I implemented Power Automate Desktop to automate repetitive tasks and improve workflow efficiency.
- **API Integration:** I integrated third-party APIs to enhance application functionality and enable seamless connections with external services.
- **Ongoing Maintenance:** I provided ongoing support and maintenance for existing projects, ensuring they remained functional and up-to-date.

WORK EXPERIENCE

SJ Solutions & Infotech

PHP Laravel Developer   Sept 2021 - Jan 2024

- **CMS (Content Management Systems) Software for Schools:** I developed user-friendly CMS solutions specifically tailored for educational institutions, enabling schools to easily update and manage their website content, resources, and announcements without requiring technical skills.
- **Event Management Systems:** I designed and implemented comprehensive systems to organize and manage various events. My solutions facilitated event registration, schedule management, ticketing, and attendee tracking, which streamlined the entire event management process.
- **Membership Management Systems:** I created robust platforms for managing memberships and subscriptions. These systems efficiently handled user access, membership renewals, billing, and communication, greatly enhancing the management of membership-based organizations.
- **Online Learning Platforms:** I developed interactive and scalable platforms for online education and training. These platforms supported course creation, user enrollment, progress tracking, and multimedia content delivery, providing a seamless learning experience for users.
- **Knowledge Base Systems:** I implemented systems for building and managing knowledge bases, which allowed organizations to create, organize, and access support articles and documentation. This improved customer support efficiency and resource accessibility.
- **Property Management Systems:** I designed solutions for managing real estate properties, including features for tenant tracking, lease management, maintenance requests, and financial reporting. These systems streamlined property management tasks and improved operational efficiency.
- **Real Estate Listing Platforms:** I developed platforms for listing and managing real estate properties, including property searches, detailed listings, multimedia galleries, and client interactions. My solutions enhanced the property buying and selling experience.
- **Subscription Management Systems:** I created systems to manage subscription-based services, covering recurring billing, subscription plans, user access control, and payment processing. These systems ensured smooth operation and effective customer management for subscription-based businesses.
- **E-commerce Platforms:** I built and maintained online shopping platforms with integrated payment gateways, product catalogs, shopping carts, and customer accounts. My work optimized user experience and ensured secure transactions, supporting various online retail needs.
- **WordPress Projects:** I completed numerous WordPress projects, including custom theme development, plugin creation, and site optimizations. I delivered tailored solutions that enhanced functionality and performance across a range of WordPress sites.

SHIVAM KUMAR

FULL STACK DEVELOPER

TO WHOM IT MAY CONCERN,

I am Shivam Kumar, a full stack web developer with over 3 years of experience. My expertise includes:

- **Laravel:** Building scalable and efficient web applications using Laravel.

- **WordPress:** Developing and customizing WordPress sites, including themes and plugins.

- **Shopify:** Creating and managing e-commerce platforms on Shopify.

- **Power Automate Desktop:** Automating workflows to enhance business processes.

- **Responsive Design:** Designing websites for optimal performance across all devices.

- **Database Management:** Managing and optimizing databases for reliability and performance.

- **API Integration:** Integrating third-party APIs to enhance functionality.

- **SEO:** Optimizing websites to improve search engine rankings.

- **AJAX:** Implementing AJAX for dynamic, interactive web applications.

- **Google Maps APIs:** Utilizing Google Maps APIs to integrate location-based services and features.

- **Problem Solving and Debugging:** Identifying and resolving technical issues effectively.

I am dedicated to continuous learning and staying up-to-date with the latest trends and technologies. This commitment ensures that I deliver innovative solutions and adapt to new challenges effectively.

SINCERELY,

Shivam Kumar
